the Schreiter Institute at Catholic Theological Union

Synodality as a Field Hospital

May 9 and 10, 2024

Catholic Theological Union, Chicago

As the Catholic Church enters into the culmination of the synodal process, presentations at the Symposium will explore how we can help bring about the image that Pope Francis often uses of the Church as an authentic “field hospital” at both a global and local level.

The purpose of the Symposium is to bring together a diverse gathering for conversation about the opportunities, obstacles, challenges and possibilities to make the image of “field hospital” that attends to the care of all God’s creation into a reality.

Everyone is welcome. For those who cannot attend in person, you are welcome to join us via Zoom. A link will be sent to you when you register. There is no charge to attend, but registration is required to assist with planning.
